PUBLIC WORKS INDEX

January-December 1973 Volume 104

Month and Page

HIGHWAYS AND STREETS

Bituminous Pavements

Unrefined Waste Glass Seen OK for Glasphalt — Jan.–51
Program Will Pave 500 Miles of Residential Streets — Jan.–61
Putting New Life in Old Pavement — Feb.–72
Bituminous Overlay Reduces Traffic Noise — Jul.–82
Open Graded Asphalt Mix Combats Hydroplaning — Jul.–92
Some Thoughts About Gussasphalt Surface Courses — Sep.–100
Short Asbestos Fibers OK in Asphalt Surfaces — Nov.–52

Bridges, Culverts and Tunnels

Bridge Designed for Minimum Total Cost — Jan.–49
First Tunnel Section Set in Chesapeake Bay Crossing — Jan.–84
Cable-Stayed Bridge Investigated — Feb.–48
Ninety Years Old and Here to Stay — Feb.–58
Crawler-Loader Stars in Bridge Reconstruction Project — Feb.–92
Floating Tunnel is Proposed — Mar.–28
Galvanized Rebars in Bridge Decks — Mar.–29
Anti-Spalling Compound Protects Bridge Deck — Mar.–88
Improved Underbridge Unit Speeds Inspection — Apr.–102
Fatigue Crack Detection System — Jun.–61
Philadelphia Builds a Prize Winning Bridge — Jun.–66
New Welding System Speeds Bridge Repaving — Jun.–81
Bridge Stress Study — Jul.–60
Zinc Paint–A Technician's Coating? — Dec.–54
California's Answer to the Bridge Paint Problem — Dec.–56

Concrete Pavements

Program Will Pave 500 Miles of Residential Streets — Jan.–61
Plastic Aggregate in Concrete Makes Low-Cost Insulated Roadbed — Jan.–67
Influence of Aggregate Shape and Size and Binder Modulus on Flexible Concrete — Mar.–99

Construction Methods

New Automotive Proving Ground — Jun.–114
Slurry Wall Technique Expedites Subway Construction — Aug.–72

Design

Plastic Aggregate in Concrete Makes Low-Cost Insulated Roadbed — Jan.–67
Influence of Aggregate Shape and Size and Binder Modulus on Flexible Concrete — Mar.–99
Steel Plate Membrane Waterproofs Underpass — Mar.–106
Bicycling Generates Route Planning and Construction — Apr.–58
Procedures for Calculating Side Street Returns — May–99
Report on a National Survey of Street Development Standards — Jul.–75
Powdered Epoxy Coatings for Rebar Protection — Aug.–58

Drainage

Precast Flume Sections for Drainage Channels — Jan.–44
To Test Porous Pavement Over Permeable Base — Sep.–88
Storm Drainage "Filtered" Before Discharge — Sep.–124
Half-Section Pipe Used Effectively — Oct.–94
Effects of Highways on Surface and Subsurface Waters — Nov.–71

Month and Page

Equipment

The Elements of Good Equipment Management — Feb.–60
Preventive Maintenance Essential for Aerial Lifts — Feb.–78
Crawler-Loader Stars in Bridge Reconstruction Project — Feb.–92
Barron County's Triple-Threat Hydraulic Backhoe — Apr.–95
The Right Machine–Available When Needed–At the Lowest Total Cost — Aug.–80
Maintenance Training from Top to Bottom — Sep.–115
1974 Trucks–Best Buy of the Decade? — Nov.–56
Computer-Monitored Preventive Maintenance Pays Off — Nov.–68

Esthetics and Beautification

Vermont Village Flaunts Its Charm, Conceals Its Utilities — Oct.–72

Finance, Legal and Planning

The International Road Federation and Its Operation — Jan.–38
Legal Aspects of Slippery Roads — Feb.–69
Reducing Roadway Occupancy Time by Maintenance Crews — Mar.–77
Street Openings Are of Major Concern in New York — May–76
A Right-of-Way Saga — May–86
Balanced Transportation – Part One — Apr.–92
Balanced Transportation – Part Two — May–88
Balanced Transportation – Part Three — Jun.–71
The Right Machine – Available When Needed – At the Lowest Total Cost — Aug.–80
Fuel Control System Can Aid Maintenance Scheduling — Nov.–81

Materials

A Crushing Success: Aggregate from Concrete — Apr.–72
Emulsion or Cutback — Aug.–58
Guide Rail Is Recycled on Thruway — Aug.–114

Maintenance Plans and Programs

Putting New Life in Old Pavement — Feb.–72
Preventive Maintenance Essential for Aerial Lifts — Feb.–78
Reducing Roadway Occupancy Time by Maintenance Crews — Mar.–77
Improved Underbridge Unit Speeds Inspection — Apr.–102
Non-Destructive Pavement Testing — May–132
Highway Rating Formula — Sep.–86
Yakima Softens Its Railroad Crossings — Sep.–110
Regional Test Centers for Calibrating Skid Testers — Sep.–148
Ohio Measures Maintenance Quality — Nov.–60
Computer-Monitored Preventive Maintenance Pays Off — Nov.–68

Parking

The Burn-Out Test — Jun.–78
Half Safe is Not Enough — Jul.–89
Parking Meters Outnumber Residents — Aug.–93
Parking Garage Requires Access Ramp — Sep.–142

Safety

Legal Aspects of Slippery Roads — Feb.–69
Safety Poster — Feb.–90
Water Bumpers Protect Municipal Vehicles — Mar.–84
PennDOT Cuts Rumble Strips Into Pavements — Mar.–96
Infrared Device Detects Fog — Apr.–58
Accidents and Roadway Geometrics at Bridge Approaches — Apr.–67
Inventory of Railroad Crossings — May–140
Open Graded Asphalt Mix Combats Hydroplaning — Jul.–92
Overheight Loads Trouble Florida DOT — Oct.–82
Cave-Ins are Killers: Guard Against Them — Dec.–42
Portable Precast Concrete Safety Barriers — Dec.–44

Month and Page

Snow and Ice Control

Snow Compressed to Reduce Hauling Costs — Feb.–86
Calcium Chloride Safety Precautions — Apr.–78
Blue Sky Approach to Snow and Ice Control Alternatives — Aug.–62
Wider, Thicker, Snow Plow Blades Pay Dividends — Aug.–64
Snow Fences Improve Highway Safety — Aug.–74
South Carolina's "Snowstorm of the Century" — Aug.–84
Snow Belt City Faces Up to Winter's Challenge — Aug.–94
Highway Artillery Used to Combat Snow Slides — Oct.–88

Stabilized Surface and Base

Soil Erosion, Dust Control Research — Apr.–60
Upgrading Unimproved Roads Through Soil Stabilization — Oct.–84

Street Cleaning

Vacuum Sweepers Add to Springfield's Street Sanitation Program — Sep.–123
Street Sweeping Costs Reported — Oct.–104

Street and Area Lighting

Street Lighting Operations in the City of New York — Mar.–68
County Uses Plug-In Light Poles — Apr.–91
New Hampshire Interchange Features High Mast Lighting — Dec.–52

Surface Maintenance

Street Openings Are of Major Concern in New York — May–76
The Secret of Slurry Sealing–Do It Right — May–94
Old Tires Contribute to Thruway Maintenance — Jul.–68
Bituminous Overlay Reduces Traffic Noise — Jul.–82
Colorado Extends Surface Sealing Season — Oct.–97

Traffic Engineering

Limiting Far-Side Greens Reduces Accidents at Three-Level Interchange — Jan.–52
Mini-Computer Unsnarls Problem Intersection — Feb.–74
Lane Drop Design Criteria are Sought — Mar.–28
Accidents and Roadway Geometrics at Bridge Approaches — Apr.–67
Tampa Motorists To Be Paced Onto Interstate — Jul.–100
Safety Aspects of Traffic Signal Design — Sep.–96
Ramp Metering Improves Freeway Flow — Nov.–76
Colorado Builds "Talking" Highways — Dec.–76

Traffic Operations

Sign Shop Avoids Substantial Dollar Loss — Feb.–71
Baltimore Uses Imaginative Project Signs — May–85
Winter Pavement Marking Planned — Jul.–61
Recycled Materials Make Traffic Signs — Sep.–121
Florida Opts for Pavement Markers — Sep.–148
Traffic Engineers Tame Truck Eaters — Oct.–83
Large Sign Bridge Easily Erected — Oct.–106
Las Vegas Simplifies Its Curb Marking Program — Nov.–66
New Compressor Improves Striper Efficiency — Nov.–98
Portable Precast Concrete Safety Barriers — Dec.–44

Turf and Roadside Maintenance

City Clears Land Efficiently — May–96
Contract Mowing Reduces Highway Maintenance Costs — Oct.–68
These Highway Snails Moved Too Fast — Dec.–66

Month and Page

REFUSE COLLECTION AND DISPOSAL

Collection Methods

Analysis of Boston Refuse Collection Costs..... Feb.–66
Bulk Materials Handling System Proposed for Solid Waste Transport... Sep.–88
Centralized Pneumatic Waste Collection Sep.–172
"Litter Pig" and "Trash Hog" Reduce Refuse Collection Costs..... Nov.–74
City Designs and Assembles "Ideal" Refuse Truck..... Nov.–83

Sanitary Fill

Evaluation of Sanitary Landfill Sites.. Feb.–55
Sanitary Landfill Practices in Canada.. Mar.–92
Environmental Considerations of Sanitary Landfill Sites – Part One..... Jun.–93
Environmental Considerations of Sanitary Landfill Sites – Part Two..... Jul.–70
Determining the life of a Landfill Site Sep.–118
Effects of Home Compaction on Incineration and Sanitary Landfill Efficiency..... Oct.–92
Environmental Impact Statements for Sanitary Landfills..... Nov.–63
Grinder-Landfill Solid Waste Disposal System Serves County..... Dec.–72

Incineration

Netherlands Incinerator is World's Largest..... Sep.–164
Effects of Home Compaction on Incineration and Sanitary Landfill Efficiency..... Oct.–92

Other Disposal Methods

Unrefined Waste Glass Seen OK for Glasphalt..... Jan.–51
Navy to Study Waste Destruction Methods..... Jan.–78
Baltimore Contracts for New Refuse Disposal System..... Mar.–116
A Crushing Success: Aggregate from Concrete..... Apr.–72
Refuse Shredding – a Major Change in Solid Waste Management..... Apr.–74
Resource Recovery Facility Planned.. May–64
Solving the Problem of Abandoned Cars..... May–75
Solid Wastes as an Auxiliary Power Plant Fuel..... Jun.–119
New Uses Cited for Scrap Tires..... Jul.–60
Great Falls Will Mill Refuse..... Jul.–112
Conversion of Municipal Waste to a Substitute Fuel..... Aug.–76
Recycled Materials Make Traffic Signs Sep.–121
Ferrous Metal Separation from Solid Waste..... Sep.–178
Twin Cities to Have Pyrolysis Plant.... Oct.–56
Municipal Leaf Disposal As An Asset.. Oct.–89
Paper Mill Sludge Has Land Conservation Potential..... Oct.–128
Study of Sewage Sludge Composting.. Nov.–106
The "Multning" Process for Disposal of Shredded Refuse..... Dec.–58

Waste Management

Experience in Contracting for Solid Waste Management..... Jan.–59
Newspaper Recycling Project Revisited Jan.–64
Legal Facets of County-Wide Solid Waste Management..... Mar.–81
Refuse Practices Surveyed..... Apr.–116
Special Car for Rail-Haul of Refuse.... Apr.–126
Municipal Refuse Operations – a 57 County Study..... Jul.–114
Indian Community and City Plan Solid Waste Recovery..... Sep.–172
Hempstead Town Plans Recycling Plant..... Sep.–122
Boy Scout Jamboree Reclaims ½-Million Steel Cans..... Nov.–97

SEWERAGE AND SEWAGE TREATMENT

Finance, Legal and Planning

Federal Programs Permit Important Utilities Expansion..... Jan.–43
Determining Utility Rates for Commercial Users..... May–97
The Cost of Wastewater System Facilities..... May–100
Determining an Equitable Surcharge for Industrial Waste..... Jul.–84
Miami Conservancy District Takes on Water Quality Management..... Jul.–90
EPA Awards Record $3.1 Billion in Construction Grants in Fiscal 1973 Sep.–86
Sanitary District Reports Programs.... Nov.–52

Sewer Systems – Construction

Sewer in Flood Plain Must Fight Infiltration..... Jan.–66
New Interceptor Sewer is a "Prime Time" Project..... Mar.–71
Bangor Interceptor Sewer Job on Schedule..... Jul.–112
Cave-Ins are Killers: Guard Against Them..... Dec.–42

Sewer Systems – Design

New Interceptor Sewer is a "Prime Time" Project..... Mar.–71
Computerized Sewer Design – A New Engineering Tool Jun.–75
Design Procedure for a Rural Pressure Sewer System..... Oct.–86
A Pneumatic, Adjustable Vee-Notch Weir..... Dec.–62

Sewer Systems – Maintenance

Pipeline Rehabilitation with Liner Pipe Jan.–46
Insertion of Polyethylene Pipe Renews Damaged Sewer..... Feb.–64
Oakland Maps Program to Combat Sewer Infiltration..... Feb.–82
Blocked Outfall Cleared Through Salvaged Gate Valve..... Mar.–101
Line Repair Reduces Treatment Plant Input..... May–130
A New Tight Fit – Insertion of a Plastic Liner in a 42-Inch Sewer.... Jun.–98
Sewer Grouting Cures Plant Overload Problem..... Jul.–94
Fast Replacement of a Flood-Damaged Interceptor..... Oct.–95

Sewage Treatment – Design

Treatment Plant Designed for Anticipated Standards..... Jan.–54
Dissolved Air Flotation for Combined Sewer Overflows..... Feb.–50
The Prairie Plan..... Apr.–64
Tertiary Wastewater Treatment Plant for a Recreational Area..... Apr.–82
EPA Defines Secondary Treatment of Wastewater..... Jun.–60
Two-Stage Biological Treatment of a Difficult Wastewater Mixture..... Aug.–89
Plant Serving 650,000 to Add Secondary Treatment..... Oct.–66
Water and Wastewater Facilities for Florida Housing Developments..... Oct.–98
Major Wastewater Treatment Plant Meets Esthetic Standards..... Nov.–86
Major Wastewater Treatment Plant is Upgraded..... Dec.–47

Storm Drainage

Precast Flume Sections for Drainage Channels..... Jan.–44
Half-Section Pipe Used Effectively..... Oct.–94
Underground Detention for Storm Overflows..... Oct.–116

Sewage Treatment – Industrial Wastes

Sludge Gets "Pickled Solid" at Pretreatment Plant..... Apr.–110
Pollution Control Expenditures by Industry..... Jul.–61
Determining an Equitable Surcharge for Industrial Wastes..... Jul.–84
Sidewalk Plow Pushes Sludge as Well as Snow..... Sep.–120
The Willamette River Gets Cleaned Up Sep.–171
Automatic Restarters for Blowers Increase Plant Efficiency..... Dec.–67

Treatment Methods and Research

Treatment Plant Designed for Anticipated Standards..... Jan.–54
Dissolved Air Flotation for Combined Sewer Overflows..... Feb.–50
Centrifuge Handles Fluctuating Sludge Disposal Problem..... Mar.–90
Aerated Lagoons Provide Effective Tertiary Treatment..... Mar.–97
The Prairie Plan..... Apr.–64
New Developments in Ammonia Stripping – Part One..... May–78
PCT Permits Groundwater Replenishment..... May–105
Sunshine Simulator Will Aid Pollution Research..... May–116
New Developments in Ammonia Stripping – Part Two..... Jun.–82
Largest PVC Filter Installation..... Jun.–106
Scrap Rubber for Mercury Removal... Jul.–121
Air Agitation of Treatment Plant Effluents..... Aug.–65
New Plant Will Use Liquid Oxygen Process..... Aug.–106
Detergent and Non-Detergent Phosphorus in Sewage..... Sep.–126
Use of Alum for Phosphorus Removal Oct.–56
The Muskegon County Plan of Wastewater Reuse..... Oct.–77
Hydrogen Peroxide Helps Overworked Plants..... Dec.–84

Instrumentation

Combined Sampling and Flow Measurement..... Apr.–71
Sewer Alarm System Saves Taxpayers' Dollars..... Sep.–113
A Pneumatic, Adjustable Vee-Notch Weir..... Dec.–62

WATER SUPPLY AND PURIFICATION

Finance, Legal and Planning

Long Range Planning Assures Water Plant Expansion..... Jan.–36
Federal Programs Permit Important Utilities Expansion..... Jan.–43
Planning Averts Water Crisis..... Feb.–62
Better Customer Service Through On-Line Computers..... Apr.–96
Determining Utility Rates for Commercial Users..... May–97
Utility District Anticipates Future Water Needs..... Jul.–64
Compound or Turbine Meters – Which One to Use?..... Jul.–72
Preventive Maintenance – A Must for Large Meters..... Aug.–69

Water Pumping

High Service Water Pumping Station Provides Operation Efficiency..... Mar.–94
Extensive Pumping System Serves California City..... Apr.–118
Fuel Cost Savings Prompt Choice of Gas Engine..... Aug.–120

Reservoirs and Tanks

No Water Lost from This Reservoir.... Mar.–72
Sawtooth Spillway Design Increases Impoundment Storage..... May–64
Reservoir Storage Improves Water Quality..... May–72
Installing Floating Reservoir Covers... Jun.–92
Million-Gallon Fabric Water Tank Performing Well..... Jun.–120
Reservoir Roof Serves Double Duty... Nov.–116

Supply Lines and Distribution

Computer Helps Solve Water Distribution Problems..... Mar.–85
Polyethylene Pipeling Conquers Swamp Mar.–100
Water District Does Own Construction Mar.–122
Air Tool Speeds Water Service Installations..... May–103
New Pipeline Increases Water Delivery May–122
Rehabilitation of a Water Supply Transmission Main..... Jun.–70

	Month and Page
Cross-Connection Hazards and Controls	Jun.–89
Restoring Operation of a Flooded Pump Station	Oct.–85
Rural Water System Designed for Suburban Use	Nov.–77
A New "First" for Dallas – Large Diameter Steel Pipeline	Nov.–88
Cave-Ins are Killers: Guard Against Them	Dec.–42
Analysis of a Large Water Distribution System Using Advanced Computer Software	Dec.–60

Water Treatment – Design and Operation

Long Range Planning Assures Water Plant Expansion	Jan.–36
Providing Security Against Vandalism in a Water System	Jan.–63
Old Water Plants Will Not Last Forever	Feb.–76
Corrosion Proof Precipitator Baffles	Feb.–100
Water Treatment Plant Upgrades Chemical Handling System	Apr.–86
Fluoridation at a Small Water Plant	May–102
Water and Wastewater Facilities for Florida Housing Developments	Oct.–98
Successful Application of Granular Carbon Solves Quality Problems	Dec.–70

Instrumentation

Providing Security Against Vandalism in a Water System	Jan.–63
Servicing Water Meters in Easements	Sep.–108

Treatment Methods and Research

Contract Awarded for Large Electrodialysis Plant	Jan.–72
Reservoir Storage Improves Water Quality	May–72
Zero Discharge of Water Filtration Plant Wastewater Effluent	Aug.–86
Red Water Complaints Eliminated	Sep.–150
Municipal Water Treatment with Polyelectrolytes	Oct.–80
Demineralization Processes to be Tested	Nov.–128

Water Supply and Sources

Meeting Service Water Requirements in an Amusement Park	Jan.–68
Planning Averts Water Crisis	Feb.–62
Peninsula Has Ample Water Resources	Feb.–68
Man-Made Aquifer is a City Water Source	Feb.–81
PCT Permits Groundwater Replenishment	May–105
Aquifer Simulation Model for Southeastern Wisconsin	Jun.–60
New Engineering Approaches to Water Resources Planning	Sep.–129
Effects of Highways on Surface and Subsurface Waters	Nov.–71

ADMINISTRATION AND PLANNING

Computer Assistance for a Public Works Department	Feb.–79
Four-Day Work Week Has Advantages	Mar.–89
Water Works Association Sponsors Broad Educational Program	Apr.–77
Highway Department Aided by Business Executives	Jun.–86
The Citizen and the Engineer – Angry Confrontation or Winning Partnership?	Jun.–96
Life Cycle Analysis – A Management Tool	Sep.–103
Deferred Compensation – A Great Fringe Benefit	Sep.–117
Environmental Impact Statements – Boon or Boondoggle?	Oct.–73
"Accent on Safety" Benefits King County	Dec.–64

AIR POLLUTION CONTROL

Simulating Photo-Chemical Smog in Urban Areas	Mar.–29
Car Pools Proposed to Reduce Air Pollution	Apr.–70
Rare Earth Compounds to Cure Air Pollution	May–65

AIRPORTS

Anticipating Flights of Migratory Birds	Mar.–28
All Runways Safety-Grooved at Dallas/Fort Worth Airport	Dec.–51

BUILDINGS AND SERVICE CENTERS

New Service Center Results in Improved Operations	Mar.–74
New Center Houses Variety of City Services	Nov.–78

DAMS AND FLOOD CONTROL

Chemical Brush Program Helps Guard a City	Mar.–82

GENERAL AND MISCELLANEOUS

Engineering to Improve Lake Quality	Apr.–79
The Fair Sex in Engineering	Apr.–84
Researchers Predict Oil Spill Movement	Apr.–126
Graffiti Is Easier to Create Than Remove	May–92
Stone Revetments Protect Historic Sites	Jul.–79
NCPI Honors Graeser, Lagnese	Jul.–106
Boy Scout Jamboree Requires Planning	Aug.–82
Navy Public Works and the Environment	Sep.–106
Manpower Needs for Water and Wastewater Equipment Manufacturers	Nov.–67
Bacterial Contamination Monitor	Dec.–50
Radios Aid School Crossing Guards	Dec.–57
The Environment – Not New But Current	Dec.–69

INSECT AND RODENT CONTROL

Evanston Combats Dutch Elm Disease	Jan.–60

RECREATIONAL FACILITIES

Building Lakes in the Desert	May–65
Fishing Improved by Lake Aeration	Jul.–116
Interstate Rest Stop Features Fun Center	Aug.–92
Reservoir Roof Serves Double Duty	Nov.–116
Geodesic Dome Houses Municipal Pool	Dec.–92

URBAN TRANSPORTATION

Multiple Joint-Use of Urban Expressways	Feb.–48
Balanced Transportation – Part One	Apr.–92
Balanced Transportation – Part Two	May–88
Balanced Transportation – Part Three	Jun.–71
Bay Bridge Car Pool Success is Mixed, First Year Shows	Sep.–148

ABOUT OUR COVER

William A. Bugge	Jan.–1 & 16
Walter A. Schaefer	Feb.–1 & 18
Ralph J. Black	Mar.–1 & 18
Leo L. Johnson	Apr.–1 & 18
Robert P. Van Dyke	May–1 & 18
Albert E. Woodhear, Jr.	Jun.–1 & 14
W. S. "Stan" Ekern	Jul.–1 & 18
Robert C. Esterbrooks	Aug.–1 & 18
Rear Admiral A. R. Marschall	Sep.–1 & 18
John S. Harnett	Oct.–1 & 18
William F. Farnam	Nov.–1 & 18
Malcolm Pirnie, Jr.	Dec.–1 & 18

LEGAL ASPECTS OF PUBLIC WORKS

Duty to Remove Debris From Alleys	Jan.–92
Junk Yard Fence Ordinance Held Invalid	Jan.–92
Water Sale to Private System Inside Rural Water District	Jan.–92
Trash Hauling Certificate Upheld by State	Jan.–92
Private Collectors Barred From Municipal Disposal Site	Feb.–112
Factors Used to Determine Storm Sewer Assessment	Feb.–112
Notice to City of Accident: Strict Compliance Overruled	Feb.–112
Determining Who Is A "Responsible" Bidder	Mar.–26
Industrial Waste Surcharge Upheld in Chicago	Mar.–26
Child Injured While Playing on Pipe	Mar.–26
Utility Services Improperly Disconnected	Apr.–22
Sidewalk Slope Held Not Dangerous	Apr.–22
Connection by City To Private Sewer Line	Apr.–22
Water and Sewer Rates For Motels and Trailer Courts	Apr.–22
Demolition of Unsafe Buildings	May–58
Ordinances Requiring Ice and Snow Removal	May–58
Duty to Keep Streets Free from Defects	May–58
Sign Ordinance Upheld In Name of Esthetics	May–58
City Employees' First-Hand Knowledge of Damage Does Not Replace Formal Claim	Jun.–136
Advertising Signs and Traffic Hazards	Jun.–136
Creation of Underground Districts Upheld	Jun.–136
Injury Caused by Defective Seesaw	Jul.–26
Burying Underground Utilities Found to Be Public Purpose	Jul.–26
Competitive Bidding Waived For Demonstration Plant	Jul.–26
Permit Required for Open-Air Public Meetings	Jul.–26
Notice of Accident Caused by Street Defect	Aug.–130
Sewer Assessment Against Vacant Farmland	Aug.–130
Sign Ordinance Based on Esthetics	Aug.–130
Air Pollution Ordinance Upheld	Aug.–130
Legislation Upheld For Meadowlands Development	Sep.–138
Public Acquisition of Private Bus Company Upheld	Sep.–138
Preference to Bidders on Prior Public Works Contracts	Sep.–138
Revenue Bonds Finance Air Pollution Control	Sep.–138
Gradual Incapacity of Sewer System	Sep.–138
Higher Sewer Charges For Developers	Sep.–140
Waste Collection Ordinance Upheld	Sep.–140
Sewer Charges Against School District	Oct.–146
Louisiana Facilitates Issuance of Industrial Revenue Bonds	Oct.–146
Municipal Financing of Pollution Control	Oct.–146
Utility Pole Undermined By Nearby Excavation	Oct.–146
Developers Required To Construct Storm Drain	Oct.–146
Purchase of Building Under "Turnkey" Rules	Nov.–132
Sewer Construction Financing Method Challanged	Nov.–132
Surface Water Damage From City Cemetery	Nov.–132
Connection Fee Increase Not Allowed	Nov.–132
Public Works Contract Rescinded by Second Bid	Nov.–132
Municipal Incinerator Basis of Warranty Lawsuit	Dec.–104
Trailer Park Ordinance Declared Unconstitutional	Dec.–104
Garbage Collection Contract Bid Upheld	Dec.–104
Special Assessment District for Highway Overpass	Dec.–104
